07 March 2022

Changes to ventilators

As you may be aware the updated Approved Document F regulations come in to force in June 2022. In order to make it easier for you to comply with the new regulations, RW Simon Ltd have introduced new sizes and routing details for all our through the frame vents.

From 1st April our new size and product range will be as follows;

Product	Model	Size (mm)	Equivalent Area (mm ²)
TTF Slimline	300	300	2792
TTF Slimline	400	400	4069
TTF Slimline	600	600	5235
Sightline	300 - screw in with hood	300	2972
Sightline	400 - screw in with hood	400	3029
Sightline	400 - screw in with push in flyscreen	400	3951
Sightline	600 - screw in with hood	600	6132
Sightline	600 - screw in with push in flyscreen	600	6447
Framevent	300	300	2328
Framevent	400	400	3180
Framevent	Hi- Flow	415	4191
Framevent	Hi-Flow +	525	5205

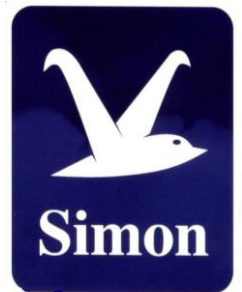

For those customers who purchase aluminium bar lengths, these will now be supplied in lengths of 4.1m.

All standard colours will still be available, with RAL 9001 (ice cream white) joining the standard colour range for our PVC Framevent.

Please see the attached sheet behind for our updated routing guide. New part numbers available on request.

If you would like any further information on our updated range, or on how to comply with the new Approved Document F regulations, please do not hesitate to get in contact with your area sales manager.

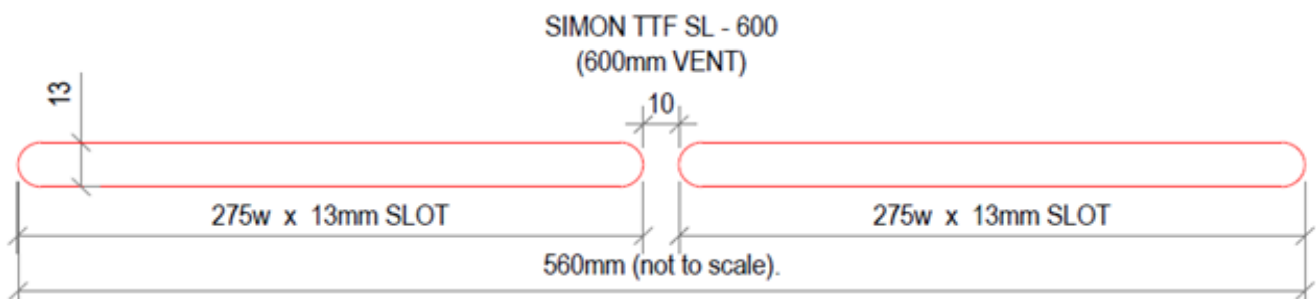

Kind Regards
Sales Team
