DUCO

HOME OF OXYGEN

DUCO Ventilation & Sun Control provides every building with a healthy supply of oxygen. With a comprehensive range of innovative natural and mechanical ventilation systems, either combined with external solar shading or otherwise, DUCO offers the ultimate guarantee of a healthy and comfortable indoor climate. The occupant's health is,

therefore, central to DUCO. A well-thought-out combination of basic ventilation, mechanical extraction, purge ventilation and solar shading ensures optimum air quality. DUCO provides an innovative solution for residential buildings, offices, schools or care centres where everyone feels at home.

A SOLUTION FOR EVERY SITUATION

→ Quick assembly

With DUCO's patented **'Turn-Click' system** for DucoWall Classic and Acoustic, plastic louvre holders are pre-fastened to the mullion. The louvre blades are easily clicked on to this.

With DUCO's patented **'Direct Clip' system** for DucoWall Solid and Screening, the louvre blades are clicked onto the mullion directly, ensuring super-quick assembly.

Triple
Solid 30Z louvre blades

→ Finish

Each type of louvre wall is available in any colour: **SAA, any RAL colour, textured paint, special paints/lacquers, etc.** Every type of louvre wall is lacquered as standard in SeaSide grade. In addition, every type of louvre wall in this brochure complies with the **Qualicoat** or **Qualanod** quality specifications.

→ Vandalism and intrusion security

Solid louvre blades are very sturdy and **'vandal-proof'**.

RC2

Each type of louvre wall (DucoWall Solid, Classic*, Acoustic and Screening) and the DucoDoor Louvre and Grille louvre doors have the option of being manufactured **burglary-resistant up to resistance class 2** in accordance with European standards.

* Except for DucoWall Classic W 60C/2, W 60C/3 and DucoWall Acoustic W 300

→ Insect screen and vermin screen

With DucoWall Solid louvre blades with small punching slots (P1), the **perforated louvre blades** act as an insect screen. With all other types (Solid P2, Classic, Acoustic and Screening), **optional 2.3 x 2.3 mm or 6 x 6 mm stainless-steel mesh** can be selected.

P1

P2

Stainless-steel mesh

→ Ventilation capacity

Each louvre wall is tested extensively and optimised by DUCO's R&D department. The **'High Performance'** HP louvre blades in the DucoWall Classic range ensure excellent airflow thanks to low resistance.

Airflow performance class	Ce or Cd
1	> 0,4
2	0,3 - 0,399
3	0,2 - 0,299
4	≤ 0,199

DucoWall Classic W 130HP

→ Water resistance

All DucoWall louvre wall systems have been tested by **BSRIA** in accordance with the water tightness tests developed in collaboration with HEVAC. The test simulates 75 litres per hour rainfall at a wind speed of 13 metres per second. A class is assigned to the louvre wall on the basis of the air velocity in the louvre wall and the % of watertightness.

EN13030

Class A	100 - 99 %
Class B	98,5 - 95 %
Class C	94,9 - 80 %
Class D	< 80 %

→ Penetration security

DucoWall Classic louvre walls with **V-louvre blades** are penetration proof.

→ Sound absorption

DucoWall **Acoustic** louvre blades are fitted on the inside with non-combustible mineral wool and are ideally suited for applications with high levels of noise intrusion.

→ STND and +OPT version

The technical values of our grilles have been tested in two ways:

STND = 'Standard'

This is the standard version.

+OPT = '+Options'

This is an optional version where the louvre wall has been tested incl. insect screen.

The **+OPT** version will often bring better results in terms of water resistance. See each product page for all values per grille type.

PRODUCTOVERVIEW

Ventilation capacity

 = at intake
 = at exhaust

The longer the bar, the greater the airflow.
STND and +OPT version: see page 5

Maximum span

between two mullions at 800 Pa and pressure coefficient: 1.2

DUCOWALL SOLID

Sturdy aluminium blades that connect to one another ensure **vandal-proof** louvre walls with a minimal support structure. **Very quick assembly** thanks to DUCO's patented 'Direct-Clip' system.

⑥ DucoWall **Solid** W 30Z

← 1970 mm →

see p. 8

DUCOWALL SCREENING

Aluminium louvre wall system that is eminently suitable for projects where the wall acts primarily as **screening**. These systems guarantee **very quick assembly**.

* Impact and fall protection only applies in combination with Metal Clips.

Ventilation capacity

 = at intake
 = at exhaust

The longer the bar, the greater the airflow.
STND and +OPT version: see page 5

Maximum span

between two mullions at 800 Pa and pressure coefficient: 1.2

DUCOWALL ACOUSTIC

Aluminium louvre wall system with louvre blades that are fitted with **sound-absorbing**, non-combustible mineral wool. Quick assembly with DUCO's patented 'Turn-Click' system.

⑥ DucoWall Acoustic W 75Z	  	← 1700 mm →	see p. 28
⑥ DucoWall Acoustic W 75L	  	← 1650 mm →	see p. 28
⑥ DucoWall Acoustic W 150	  	← 2150 mm →	see p. 29
DucoWall Acoustic W 300	  	← 2150 mm →	see p. 29

DUCODOOR LOUVRE DOORS

Ventilated louvre doors or false louvre doors, optionally either integrated or not into the louvre wall.

Duco Door Wall		Louvre door in louvre wall system without specific requirements	see p. 31
Duco Door Louvre	 	Ventilated louvre door or false louvre door in the louvre wall system with specific requirements for intrusion resistance and/or draught-proofing	see p. 32
Duco Door Grille	 	Free-standing ventilated louvre door or false louvre door , either with or without specific requirements for intrusion resistance and/or draught-proofing	see p. 33

ROOF TURRETS

Kits and components to build roof cowls with DucoWall louvre blades.

Duco Roof Turret Solid 30Z	  n/a		see p. 36
-----------------------------------	---	--	-----------

Legend

Vandal-proof
The grille is vandal-proof

Penetration safe
The grille is penetration-proof

Impact protection
Resistant to intense shocks

Fall-through protection
Prevents people from falling through

Burglary-resistant
The grille is (optionally) burglary-resistant up to class 2

Water resistant
The grille is **good** to **very good** water resistant

Sound absorption
Can be used in projects with **light** or **heavy (+)** noise exposure

High Performance
The louvre blades are optimised for high air flow

LOUVRE GRILLES

Louvre blades with ⑥ are also available as wall and/or window louvre grilles (DucoGrille). See our 'Louvre grilles' brochure for more information.

Vandal-proof

DucoWall

Solid W 30Z

DucoWall Solid 30Z louvre blades offer high ventilation capacity with relatively small louvre blades. The 'stackable' louvre blades form a single whole, making them **extra strong** and **vandal-proof**. The strong louvre blade system requires a minimal support structure. DUCO's 'Direct Clip' system ensures **very quick assembly**.

DIMENSIONS AND MULLIONS

Punching

DucoWall Solid W 30Z is available with louvre blades with **small punching (P1)**, **large punching (P2)** or without punching as **false louvres (NP)**. Combining the two in the same project ensures a uniform appearance.

INSECT SCREEN

Punching			
	P1	P2	NP
Resistant to...	Perforated louvre blades as insect screen	Perforated louvre blades as bird screen OPTIONS Stainless steel mesh, 2.3 x 2.3 mm  Stainless steel mesh, 6 x 6 mm 	100 % false louvre

SUPERFAST ASSEMBLY

DucoWall Solid W 30Z is made up of **triple louvre blades** that are clicked together one above the other onto the mullion using DUCO's 'Direct Clip' system. This ensures a very sturdy unit and extremely quick assembly.

The final row can be finished with a single louvre blade.

DUCOWALL SCREENING

An aluminium louvre wall system for screening applications: DucoWall Screening is eminently suitable for projects where the wall acts primarily as **screening**. Assembly is very quick.

Within the Screening range there are two options. **DucoWall Screening 35** adds aesthetic value to your project and guarantees quick installation.

The larger variant is **DucoWall Screening 70**. Benefits include the high span and high airflow. In combination with the limited number of supports, this louvre also ensures very smooth installation of the full louvre wall.

**SUPERFAST
ASSEMBLY**

Louvre pitch 75

Louvre pitch 112

Louvre pitch 150

**SUPERFAST
ASSEMBLY**

DucoWall Screening 35

DucoWall Screening 35 is a louvre wall system that can be clicked directly onto the mullion. This results in **quick and smooth assembly**. There are three different louvre blades to choose from. In this way, the louvre wall can be adapted to the wishes and needs of any project. The system is eminently suitable for projects where the louvre wall acts primarily as **screening**.

Good water resistance

Penetration safe

DucoWall Classic W 70V

DucoWall Classic W 70V is a louvre wall system that can be fitted against an existing structure. Quick and easy assembly is possible because of the 'Turn-Click' system. The unique **"V"-shaped louvre blade** ensures better water resistance and makes the louvre wall 'penetration-proof' and difficult to see through from the outside.

High Performance

DucoWall Classic W 45HP

The DucoWall Classic W 45HP combines **very good airflow** with a “Z”-shaped louvre blade for a sleek design. This makes the DucoWall Classic W 45HP suitable for purge ventilation in projects with specific aesthetic requirements.

High Performance

Excellent water resistance

Fall-through protection

Impact protection

DucoWall Classic W 130HP

The DucoWall Classic W 130HP has been specially developed for **purge ventilation**. The uniquely shaped 'High Performance' louvre blade with a low resistance factor provides a combination of **very good airflow** (high flow rates) together with **excellent water resistance (class A)**. DucoWall Classic W 130HP is a louvre wall system that can be fitted against an existing structure. Quick and easy assembly is possible because of the 'Turn-Click' system. The DucoWall Classic W 130HP meets class 5 of EN13049 for **impact protection*** and BS6180 standard (class XI) for **fall-through protection***. See page 38-39 for all classes per country.

W 60C/3

triple row of louvre blades

W 60C/2

double row of louvre blades

W 60C

single row of louvre blades

DucoWall Classic W 60C

DucoWall Classic W 60C is a 'feature' louvre wall system, manufactured from 'cold-rolled' rather than extruded, aluminium louvre blades. The plastic louvre holders ensure a unique sturdiness. The three versions (**single, double or triple**) combine maximum airflow with **very high water resistance**, even in extreme weather conditions.

DUCO LOUVRE DOORS

The louvre door range enables you to choose between the **DucoDoor Wall**, **DucoDoor Louvre** and **DucoDoor Grille** depending on the aesthetic, technical and legal requirements of the building. DUCO's louvre doors are suitable for use in (technical) rooms – whether or not at ground level, in car parks, etc. either **ventilating** or as (draught-proof) **false louvre doors**. All of our doors will guarantee a **sleek and uniform look**.

Type			
	DucoDoor Wall see p. 31	DucoDoor Louvre see p. 32	DucoDoor Grille see p. 33
Application	Louvre door in louvre wall system without specific requirements.	Ventilated louvre door or false louvre door in the louvre wall system with specific requirements for burglary resistance and/or draught-proofing.	Free-standing ventilated louvre door or false louvre door either with or without specific requirements for burglary resistance and/or draught-proofing.
Vandal-proof 	✓ Subject to Solid 30Z louvre blades	✓ Subject to Solid 30Z louvre blades	✓
Burglary-resistant 	✗	✓ RC2 possible with NP or P1 internal louvre blades	✓ RC2 possible with NP or P1 blades
Draught-proof	✗	✓ Possible subject to NP louvre blades	✓ Possible subject to NP louvre blades
Louvre blades	Complete DucoWall range possible	Complete DucoWall range available as surface-mounted blades, combined with Solid 30Z internal blades as an option	Solid 30Z NP, P1 or P2 louvre blades
Opening angle			
Available versions	Single / double door opening inwards / outwards left / right-hand opening available		
Maximum usable dimensions	Single door: W 1500 x H 3000 mm Double door: W 3000 x H 3000 mm		
Door furniture	Comes with a lever handle on the inside of the door and a T-handle on the outside as standard. Other combinations available on request. Panic lock available on doors that act as an emergency exit (only for doors less than 2.2 m high, outward opening and not on intrusion-resistant doors).		

DucoDoor Wall

The DucoDoor Wall is a **pivot door** that can be easily constructed using the same louvre blades and sections as your chosen louvre wall. Thanks to a wide range of Solid, Classic and Screening louvre blades, the DucoDoor Wall integrates seamlessly and **invisibly into a full louvre wall**. This guarantees a sleek and **uniform façade**.

Single door
opening **inwards**

Single door
opening **outwards**

Double door
opening **outwards**

A = overall dimension
B = useful width

DucoDoor Louvre

With the DucoDoor Louvre, DUCO has developed an **intrusion-resistant louvre door** that has been extensively tested by SKG in accordance with European standards (EN 1627:2011 & NEN 5096+C2:2011) and has been certified as **resistance class RC2**. The DucoDoor Louvre can also be made **draughtproof**. The special hinges fitted on the side create a **large usable width** and enable the door to be opened **by 180°**. This type of louvre door can be easily concealed in a louvre wall as it can draw on the **complete range** of Solid, Classic and Screening louvre blades.

Single door
opening **outwards**

Double door
opening **inwards**

A = overall dimension
B = useful width

BURGLARY- RESISTANT

DucoDoor Louvre can be ordered up to intrusion-resistance class RC2 as an option. Certification available upon request.

also in
RC2
configuration

Duco**Door** Grille

As a **free-standing entrance door**, the DucoDoor Grille is eminently suitable for non-louvre walls. Thanks to the fact that the **Solid blades built in as standard** (type 30Z) can be slotted in three different ways, (P1, P2 or NP), the façade can be given an aesthetic and expressive character. The DucoDoor Grille also scores high on **burglary resistance**. The Solid blades make every version **vandal-proof**. What is more, this louvre door has been tested by SKG in accordance with European standards (EN 1627:2011 & NEN 5096+C2:2011) and an **RC2-certified version** is available. In addition, the DucoDoor Grille can be made completely **draught-proof**. The special hinges fitted on the side create a **large usable width** and enable the door to be opened **by 180°**.

Single door
opening **inwards**

Double door
opening **outwards**

A = overall dimension
B = useful width

BURGLARY- RESISTANT

DucoDoor Grille can be ordered up to intrusion-resistance class RC2 as an option. Certification available upon request.

SPECIFICATIONS

DucoDoor Grille uses Solid 30Z louvre blades. All specifications relating to ventilation capacity, water-resistance and insect-resistance can be found on page 8.

DucoWall **Classic** 45HP

Data Centre | London (England)

Duco **Roof Turret Solid 30Z**

Duco Roof Turret Solid 30Z is an aluminium roof cowl. It provides aesthetic concealment of air vents. The roof cowl also ensures adequate **purge ventilation** of the screened areas and can be used in almost **any project**. The perforated Solid 30Z louvre blades are the ideal solution for both insect resistance and ventilation capacity. Thanks to large punching (P2), this **small roof cowl** achieves **high ventilation values**. The roof cowls are **made to measure** and provided with a sill at the bottom and a cover plate on top.

DIMENSIONS

Spacing of the louvre (pitch)	37,5 mm
Roof cowl length	Min. 200 mm - Max. 2630 mm (to be coupled)
Roof cowl width	Min. 200 mm - Max. 1180 mm (to be coupled)
Roof cowl height	Min. 255 mm - max. 1600 mm

2,5 m/s	D	D	C

Sill profile

The **Duco Roof Turret Solid 30Z** also exists as a variant with sill profile. The sill profile ensures **better water drainage**. The sill profile allows the roof covering to be completely concealed. This provides an **aesthetic finish**. It also offers more placement options.

OPTIONS DUCO **ROOF TURRET SOLID 30Z**

DucoGrille Close 105

The DucoGrille Close 105 can, as an option, be integrated in the roof turret, thereby ensuring a controlled air supply or extraction. More info on the DucoGrille Close 105 can be found in our "Louvre Grilles" brochure.

Eggcrate grille

The Duco Roof Turret Solid 30Z is available with an optional Eggcrate grille, which provides even better water resistance (combination with the P2 louvre blades).

ROOF COWLS WITH OTHER LOUVRE BLADES

In addition to the Duco Roof Turret Solid 30Z, DUCO also offers a system in which almost **all types of louvre blade** from the DucoWall range can be used. These roof cowls are made up of profiles from the DucoWall range. The upper panel and finishing thresholds are included. They are available as separate parts, semi-assembled kits or fully assembled kits. Do you need more info? Contact your DUCO dealer.

IMPACT AND FALL-THROUGH PROTECTION

Façade elements are increasingly expected to meet 'impact protection' and 'fall-through protection' requirements:

Impact protection

The resistance of a material to which an intense force or shock is exerted for a short period of time.

Fall-through protection

The load applied to resist penetration that prevents people from falling through this barrier.

Note: often a specific mounting method applies or the test is only valid for specific versions (e.g. a certain step, a certain maximum span ...).

Contact DUCO for more information. Full test reports can be requested from DUCO.

Overview of new results

DUCO products achieve very good results in terms of impact and fall-through protection:

	Impact protection		Fall-through protection
