Environmental Policy

We hereby make the following commitment to reducing our effect on the environment.

"In all our activities, working practices and business relationships, we will continuously work towards protecting, conserving and enhancing all aspects of the environment over which we have control or influence.

To achieve this we are working towards an Environmental Management System that meets the requirements of ISO14001 and have set ourselves the following policy aims.

We will:

- Meet all the necessary regulatory and consent requirements which apply to our business.
- Keep abreast of the environmental issues that are relevant to our business.
- Identify the significant environmental impacts of the company's activities and achieve a continual improvement using the methods set out in ISO14001.
- Promote optimum and efficient use of resources and energy.
- Work towards the reduction or elimination of any actual or potential pollution.
- Raise the awareness of all staff about the company's environmental policy and related matters so that they understand the impact of their actions on the environment.
- Provide any interested parties with relevant and appropriate information.
- Draw up an action plan to improve our environmental practice, monitor our progress in achieving targets we set and review these on a regular basis.

Signed :

Robert Simon, Managing Director
